ISMSEM 2022

1st International Seminar on Materials Synthesis and Environmental Monitoring

« Issues and Perspectives »

AIMS AND OBJECTIVES

The first International seminar on materials synthesis and environmental monitoring aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Materials Synthesis, Characterization and Processing. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Materials Synthesis, Characterization and Processing.

The conference provides an opportunity for scientists and engineers to showcase their research on an international platform. It also provides a venue for entrepreneurs and venture capitalists to discuss collaborative research and business developments. A panel of international experts will discuss and address possible avenues to bridge the gap between research and development. Conference attendees will receive a copy of the proceedings that contains all accepted papers

This conference will include, emerging research related to materials, nanotechnology, environment and other interesting topics

ABOUT THE SEMINAR

The first International seminar on materials synthesis and environmental monitoring (ISMSEM 2022), organized by department of chemical process engineering, faculty of applied sciences, university of Kasdi-Merbah, will be held in Ouargla (Algeria), from 07th to 09th February, 2022.

The first edition of (ISMSEM 2022) provides an update on the latest advances in technology and applications of synthesized nanostructures and nanomaterials. Includes presentations of new strategies and issues associated with organic and inorganic materials synthesis, nano-composite materials from functional polymers, environmental monitoring, and chemical methods of materials functionalization.

FEBRUARY 07-09, 2022
OUARGLA, ALGERIA

LOREM IPSUM

HONORARY PRESIDENTS

Pr. HALILAT M^{ed}.TAHAR, University of Ouargla (Algeria)
Pr. KRIKER ABDELOUAHED, University of Ouargla (Algeria)

CONFERENCE CHAIR

Dr. FETHI ACHI, University of Ouargla (Algeria)

ORGANIZING COMMITTEE CHAIR

Dr. SELLOUM DJAMEL, University of Ouargla (Algeria)

ORGANIZING COMMITTEE MEMBERS

Dr. BACHA Oussama, University of Ouargla (Algeria)
Dr. BAAMEUR Lotfi, University of Ouargla (Algeria)
Dr. CHAOUKY Mourad, University of Ouargla (Algeria)
Dr. GUERDOUH Amel, University of Ouargla (Algeria)
Dr. GOUDJIL Med Bilal, University of Ouargla (Algeria)
Dr. ZOUBEIDI Nouael, University of Ouargla (Algeria)
Dr. LATI Mokhtar, University of Ouargla (Algeria)
Dr. GHIABA zineb, University of Ouargla (Algeria)
Dr. MOKHBI Yasmina, University of Ouargla (Algeria)
Dr. HENNI Abdellah, University of Ouargla (Algeria)
TABCHOUCHE Ahmed, University of Ouargla (Algeria)
BOUZHIANE Khadija, University of Ouargla (Algeria)
BENCHEIKH Kamel, University of Ouargla (Algeria)
ATTIA Abbes, University of Ouargla (Algeria)
HACINI Zineb, University of Ouargla (Algeria)
KENDOUR Zaouia, University of Ouargla (Algeria)
AKCHICH Zineb, University of Ouargla (Algeria)
TOUAHRIA Tatou, University of Ouargla (Algeria)
ABID Asma, University of Ouargla (Algeria)
MENAA Sabah, University of Ouargla (Algeria)
GUEMRAS Nadjet, University of USTHB (Algeria)

SCIENTIFIC DEVELOPMENT

ISMSEM 2022 has teamed up with the Special Journal Issue on Materials & Biomaterials Science (ISSN 2661-7226). A number of selected full text papers will also be considered for the special journal issues. All submitted papers will have the opportunity to be considered for this Special Journal Issue.

TOPICS

- Electrochemical sensors and biosensors
- Characterization of carbon materials
- Surface chemistry
- Organic and Inorganic Chemistry
- Physical and Analytical Chemistry
- Biochemistry and Biotechnology
- Chemical Engineering process
- Materials and biomaterials Science
- Chemical synthesis of natural products
- Analytical and Bioanalytical Methods
- Polymer Synthesis and Polymerization
- Chemical functionalization methods of material and polymers

IMPORTANT DEADLINES

October 1st, 2020: Announcement

June 30th, 2021: Submission of the abstracts

October 1st, 2021: Notification of acceptance.

February 07-09, 2022: Seminar

REGISTRATION FEES

Student Registration	9 000 DA
Researcher/Academician	10 000 DA
International researcher	100 €
Industrial professional	15 000 DA

Registration fees covers the access to all sessions of conference, accommodation refreshments, lunch and abstract book.
