**Section A (Grammar):**

---

**a- Put in a/an/ the or some where necessary if no word is necessary, leave the space empty (-).**

- 1- When we got to **the** city centre, **some** shops were still open but most of them were closed.
  - 2- I live in **a** small flat at **the** top of **an** old house near **the** town Hall
- 

**b- Make one sentence from two. Use the word (s) in brackets in your sentences:**

- 1- I couldn't sleep. I was tired. (despite)  
.....**I couldn't sleep despite being tired**.....
  - 2- They have very little money. They are very happy. (in spite of)  
.....**In spite of having very little money, they are very happy**.....
  - 3- My foot was injured. I managed to walk to the nearest village. (although)  
.....**Although my foot was injured, I managed to walk to the nearest village**.....
- 

**c- In this exercise you have to put in still, yet, already or not....any more in the underlined sentence (or part of a sentence).**

- 1- Jack lost his job a year ago and he is unemployed.  
.....**He is still unemployed**.....
- 2- Do you want me to tell Liz the news or does she know?  
.....**Does she already know**.....
- 3- I'm hungry. Is dinner ready?  
.....**Is dinner ready yet ?**.....
- 4- I was hungry earlier but I'm not hungry.  
.....**I'm not hungry any more**.....

## Section B (How to write a paper):

Research Journal of Pharmaceutical, Biological and Chemical  
Sciences

A Comparative Study of the Antibacterial Activity of Two .....

### **ABSTRACT**

The present work is aimed mainly to investigate and compare the antibacterial activities of some extracts of the aerial parts of two Chenopodiaceae species : Haloxylon scoparium and Traganum nudatum against seven bacteria strains: three gram negative (Serratia marcescens ATCC 13880, Pseudomonas aeruginosa ATCC 10145, Escherichia coli ATCC 25922) and four gram positive (Bacillus subtilis ATCC 6051, Enterococcus faecalis ATCC 29212, Staphylococcus aureus ATCC 25923, Bacillus cereus ATCC 11778) using well diffusion method. The results revealed that both extracts exhibited certain bioactivity against gram positive bacteria. H. scoparium extracts showed higher activity compared to T. nudatum. Moreover the butanol extract of H. scoparium and the ethyl acetate extract of T. nudatum proved to be more noteworthy against Staphylococcus aureus with a maximum inhibition zone of 22 mm and 15 mm respectively.

### **Questions:**

- 1- Complete the title of this paper  
A Comparative Study of the Antibacterial Activity of  
Two.....

**A Comparative Study of the Antibacterial Activity of Two Chenopodiaceae:  
Haloxylon scoparium (Pomel) and Traganum nudatum Del.**

- 2- What is the objective of this study?  
.....

**The objective of this study is to investigate and compare the antibacterial activities of some extracts of the aerial parts of two Chenopodiaceae species : Haloxylon scoparium and Traganum nudatum**

- 3- What is the meaning of the following underlined words?

**Aimed.. يهدف, investigate.. يبحث, aerial... هوائي, species... فصيلة, against... ضد, strains... سلالات, revealed... أظهر, Moreover... علاوة على, noteworthy... جدير, inhibition... تثبيط.**

- 4- In Which Journal this paper is published?

**This paper is published in the journal :  
Research Journal of Pharmaceutical, Biological and Chemical Sciences**
